

## Maryland State Beekeepers Association

**MSBA** is a non-profit organization that has been dedicated to the advancement of beekeeping and the improvement of beekeeper skills in Maryland since 1908. In addition to supporting beekeepers, we provide educational resources to the public and local leaders. More than 600 members of all ages, backgrounds, and experience look after thousands of hives in cities (yes, cities!), towns, and rural areas all over the state. Every county is represented.

**State Apiary Inspection:** 301-261-8106 / 410-841-5920

Office of Apiary Inspection, MD Department of Agriculture  
50 Harry S. Truman Parkway, Annapolis, MD 21401

All beehives within the state of Maryland must be registered with the state inspector; there is no registration fee.

All Maryland beekeepers are encouraged to follow the MSBA Recommended Management Practices for Maintaining Honey Bee Colonies in Maryland.

### Honeybees are in trouble!

The USDA estimates that every 3<sup>rd</sup> bite of food we eat depends on pollination. Crops valued at over \$40 million/year require or benefit from honeybee pollination in Maryland. You can help, even if you don't keep bees. Purchase honey & other hive products from your local beekeepers. Plant a pollinator garden. Make a donation to MSBA or your local beekeeping club. Support honeybees in your community & encourage your lawmakers to support them, too.

honeybee

eastern yellow jacket

Unlike a wasp or hornet, a honeybee has a barbed stinger, can sting only once, and dies as a result. She will sting only when threatened.

Be calm and still around bees; don't swat or wave at them.

**Celebrate honey!**

MSBA's Annual Maryland Honey Harvest Festival, which for the past 5 years has been held in September at the National Wildlife Visitor's Center, Patuxent Wildlife Refuge, Laurel is TBD for 2015. Watch the website for information.

MSBA has sponsored a honey show at our fall membership meeting at the Department of Agriculture in Annapolis since 1982. This Annual Honey and Honey Cookery Show is funded in part by a generous grant provided by the [Maryland Agricultural Fair Board](#). November 14

MSBA members' honey and hive products are present at nearly all of the county fairs and the Maryland State Fair. Many also sell their wares at farmer's markets, festivals, and health food stores. Local honey has the lowest carbon footprint of any sweetener. Supporting your local beekeeper supports the honeybees!
